

# **Contract Modification, Extra Work Agreements and Final Estimates Overruns and Underruns**

**UDOT 08B-11**

Effective: 10-06-67

Revised: 10-31-95

---

## **Purpose**

Contract modification and extra work agreements on highway construction contracts will be accomplished only when emergency or unforeseen situations become apparent during the progress of the work, necessitating this action in order to fully and satisfactorily complete the work included in the contract.

## **Policy**

The Department will report to the Commission all instances where highway construction contracts are modified or extra work agreements executed which result in an increase or decrease of 10 percent or more of the original contract award price. Final estimates on construction contracts will also be reported to the Commission on this same basis.

The Department will provide the commission quarterly with a summary analysis of contract overruns and underruns.
